<u>**AMENDMENTS**</u>

Amendments to specification

Applicants respectfully request that paragraph 37 of the specification be replaced with the

following replacement paragraph:

Modules may also be implemented in software for execution by various types of

processors. An identified module of executable code may, for instance, comprise one or

more physical or logical blocks of computer instructions which may, for instance, be

organized as an object, procedure, or function. Nevertheless, the executables of an

identified module need not be physically located together, but may comprise disparate

instructions stored in different locations<u>, including computer readable storage medium,</u>

<u>the instructions</u> ~~which,~~ when joined logically together, comprise the module and achieve

the stated purpose for the module.
